

Simplifying Diagnostics

## APPLICATION EXTENSION

# Create and follow clinical protocols with the Protocol app

- Standardized patient assessment
- Improved patient outcomes
- Clear audit trail and real-time insight

SIMPLE EDITING AND CUSTOMIZATION

WIDE RANGE OF INPUTS

PART OF MESI mTABLET SYSTEM

EASY SHARING AND PRINTING

# Improve patient outcomes with tailor-made protocols

## Choose among various fully-customizable formats:

- Measurements (SpO<sub>2</sub>, Ankle-Brachial Index...)
- Parameters (temperature, height, weight...)
- Check-boxes
- Drop-down options
- Open ended questions

## Use the flexibility the app offers:

- Create as many protocols as you like directly on the MESI mRECORDS platform.
- Sort the protocols using several parameters.
- Set the sequences of protocol procedures according to your requirements.
- You can update the protocols according to latest guidelines/best practices.

## Implement the protocol in your practice:

- Publish the protocol you want to implement.
- All members of the working group can access the protocols on the MESI mTABLET.
- Select the appropriate protocol and follow the step-by step guidance.
- You can skip individual steps if they're not applicable.

## Review and use the results:

- All data, including the measurements, is automatically stored in the patient record (MESI mRECORDS) and is always available.
- Review all data obtained through the protocol on the MESI mTABLET and MESI mRECORDS.
- After reviewing the data, create a comprehensive report.
- You can print, share, or save the report at any time.
